

Hi there. I'm Colin Tipping, and I'm known as the Radical Forgiveness guy. But I am also the author of the book, Radical Manifestation, the subject of this website. So let's right into it.

What is Radical Manifestation and what problems does it solve? Well, let me put it this way, it will have a whole lot of meaning to you are struggling with one or more of the following problems:

1. Money worries or financial concerns.
2. A low level of income and scant prosperity.
3. An inability to create success in what you do.
4. Difficulty attracting a mate or a loving relationship.
5. A poverty consciousness given to you by your upbringing.
6. A pattern of self-limitation and sabotage

Recognize any of these? If so, you're in the right place and I'm happy you've found yourself here, because I think we have the solution to these problems. Let me tell you how we can solve these problems for you.

The word Manifestation means bringing something into existence by some means or another. We can do that by taking some physical action, but what we are talking about here, with Radical Manifestation, is a system of what I call 'quantum secular prayer.'

This helps us to energetically attract what we want or need through the Law of Attraction. Not that we don't take physically action as well, of course, but in this revolutionary method, we use the power of our own Spiritual Intelligence to draw it towards us and bring it into our reality.

Has there ever been a greater need for a technology of manifestation than we have today - when people are losing jobs, homes and everything they have assumed was safe and secure? No. This is the moment to begin learning how to create consciously and naturally, so we don't go short of what we need.

I don't blame you if you are skeptical about the Law of Attraction. But let me be blunt here. Don't you owe it to yourself and your family to try anything that might secure your lifestyle -- when everyone else is losing theirs? What have you got to lose? Using the technology of Radical Manifestation - which by the way is backed up by quantum physics, could make all the difference. It might even be a matter of survival.

So whether you are needing more money, a new job, a new relationship or a better home, new car or whatever, scroll down and take a look at what we have here that might enable you to satisfy your need. A lot of what we have available is free.

Thank you for listening and have fun browsing.
